DCPL-2025-R-0016
Implementation of Internet and Wide Area Network Services for DCPL
Questions and Answers

- 1) **Question:** In reference to Section C.5.4, do we need to review the current DCPL hardware equipment in the proposal?

Answer: Review of current DCPL hardware equipment is not required.

- 2) **Question:** In reference to Section C3.1.1.2, clarify if Meraki is a part of Request?

Answer: Proposals for Meraki wireless access points are not required in this RFP.

- 3) **Question:** In reference to Section B.5, what does the amount of \$250,000 represent? Is its Professional Services, Non-Recurring Costs (materials, etc.) or Monthly Charges for services?

Answer: \$250,000 refers to total contract value per year. In this solicitation, the resulting contract shall have a not-to-exceed total amount of \$950,000.00.

- 4) **Question:** In reference to Section C.5.11, do public agencies submit the corporate annual report too?

Answer: Government public agencies are not required to submit annual reports like private entities.

- 5) **Question:** In reference to Section C.5.11, when should financial statements be submitted? Along with the proposal or later when selected?

Answer: Financial statements are required to be submitted with the technical proposal in response to the RFP.

- 6) **Question:** In Section C.4.1.1.1, is the RFP requesting a minimum of 10 Gbps Internet Access total or 15 Gbps Internet Access total? More specifically - is the requirement for a minimum 5 Gbps dedicated Internet Access for MLK AND an additional minimum of 10 Gbps shared Internet access among the remaining branch/neighborhood libraries?

Answer: 5 Gbps for MLK Library is included in the 10 Gbps shared by all 26 libraries.

- 7) **Question:** The Scope of Work - Technical Specifications in Section C.4 does not specify a technical requirement for managing the connection to the DC.gov domain. Therefore, can Factor 3 be removed from the evaluation criteria in section M.2.1.3 as it would create a uniquely unfair advantage to OCTO/DC-Net being the only authorized entity for managing connectivity to DC.gov domain?

Answer: Non-DC government vendors have been successful in managing connectivity to the DC.gov domain. The evaluation criteria for connectivity to the DC.gov domain remains as-is and non-DC Government vendors are welcome to bid.

- 8) **Question:** For Section J.16, how does DCPL currently connect to the DC.gov domain? What device model(s)/type(s) and firmware are in use, what capacity is the interconnection to the DC.gov domain? How many connections to the DC.gov domain do you have and at what location are those connections?

Answer: All 26 DCPL locations are connected to the DC.gov domain across the wide area network via Cisco communication routers

- 9) **Question:** Is the gateway router to the DC.gov domain in the current configuration maintained at the MLK library? If so, is it acceptable to connect to the DC.gov domain via the existing gateway router at MLK library?

Answer: All routers are located at DC Public Library. DC.gov domain connectivity will be maintained by the service provider under a managed service contract.

- 10) **Question:** For Section J.16, can you update the DCPL Network Design.pdf or provide an additional diagram showing the interconnections between all of the DCPL locations and the DC.gov domain?

Answer: The DCPL network design is current and accurate.

- 11) **Question:** If an amendment to the RFP is issued, will additional time be provided to submit questions based on the amendment?

Answer: RFP timelines are dictated by USAC deadlines and remain the same.
